

September 17, 2020

Dear Parent(s)/Guardian(s), and Students,

We are in the middle of a global pandemic and students are not be sent to school when they are sick. Physical distancing, the wearing of Personal Protective Equipment (ie: masks for middle and secondary students), and consideration, at all times, for the health and safety of others is paramount.

We at School District No. 8 - Kootenay Lake request your assistance in keeping our community safe by restricting your student from participating in large gatherings in their free-time or on weekends. We need to work collaboratively to stop the spread of COVID-19.

Again, School District 8 - Kootenay Lake does not condone any large gatherings. We encourage all to stay away from gatherings in areas such as the Bombi, Lovers, Creston Ferry Landing, the Canyon Gravel pit, the North Shore gravel pit, the Pondy, and any other large gathering space.

We realize the importance of COVID-19 precautions at this time and request that you help us protect our communities.

Sincerely,

Dr. Christine Perkins
Superintendent & Chief Executive Officer
School District 8 Kootenay Lake
